	Nicolas Zunhammer	

Notes: Presentation is 10 minutes with 5 minutes questions. The presentation should be in English, presented in the LSR template and should highlight your design decisions and what sets your work apart from other groups. This means every group member should talk about their contribution and how it was tested and validated using the car, furthermore, what to expect to see during the demonstrations. Please make sure that you are available for all the presentations. All TAS students should be available from 8:30 a.m. - 11:30 a.m. And later for the demonstrations.
